

Minitool Pro Prox Starter Kit

Innovative magnetic connector for improved reliability and high speed data transfer.

Impact detection system to alert management of equipment abuse and reduce maintenance costs

Integrated high brightness LED flashlight for added convenience whilst patrolling at night.

The Minitool Pro Prox Starter Kit has everything you need to set up a patrol monitoring system easily and efficiently. The robust yet lightweight IP67 reader is ideal for both internal and external applications. The GPP Patrol Management software provides you with the highest level of reporting facilities required to provide proof that tasks are being undertaken, when and where they should be. The full starter kit includes: Minitool Pro Prox reader, magnetic USB download cable, 10 x RFID Cointags, 2 RFID Personnel Tags, a RFID event book and the GPP Patrol Management software. This standalone software is unlimited, allowing you to expand the system by adding extra equipment without incurring any additional software costs. The Minitool Pro Data Reader is also Cloud ready, meaning that it can be connected to our Cloud Server (*) via a Windows computer and an Internet browser to upload the collected data. Allowing you to view reports wherever you are.

** Launching January 2018*

Robust design, waterproof, IP67 rated construction.

Rechargeable Lithium Ion battery. Once charged supports 500 card reads per day for up to 30 days.
